

ANNEX 2: PROPOSAL SHEET FOR INNOVATIVE SOLUTIONS FOR ACCESS TO EMERGENCY ULTRASOUND AS A FUNDAMENTAL PART OF COMPREHENSIVE AND CONTINUOUS ASSISTANCE TO THE CITIZEN

This document is a model. The file, in editable format, is available to interested parties in the contractor's profile and on the website: <https://www.navarrabiomed.es/es/cpmecografia>

The form must be sent in pdf and signed by email: service.obras@navarra.es, with indication in the subject field of the reference "Preliminary urgent ultrasound consultation SNS-O."

All fields in the form are mandatory.

Partial or total proposals will be accepted for the challenge posed.

Basic data	
Name of the participating entity (*)	
Challenge/s to which the proposal is presented (*) (mark as many as applicable)	<input type="checkbox"/> (SNS-O-URGENT ULTRASOUND CHALLENGE)
Proposal name	
Acronym	
Data of the representative	
Name of the Interlocutor (or representative of the proposal in the case of a joint proposal)	
Phone	
Email	
Address	
Proposer/Participant Data	
Physical person	<input type="checkbox"/>
Legal person	<input type="checkbox"/>
Sector or scope of activity (CNAE):	
Entity type	<input type="checkbox"/> Autonomous <input type="checkbox"/> Large private company <input type="checkbox"/> SME <input type="checkbox"/> Public company <input type="checkbox"/> Research Center <input type="checkbox"/> University <input type="checkbox"/> Technology Center <input type="checkbox"/> Other
Year of establishment	
Joint proposal from several natural or legal persons Check YES or NO	YES <input type="checkbox"/> NO <input type="checkbox"/>

Current size of your entity (No. of people on staff)			
Centers and main R&D resources (personnel and materials) in the EU, Spain and the rest of the world:			
Total turnover of your entity in the last 3 years (€)	2021	2022	2023
Additional Information			
Does your entity have billing for technologies similar to those in this proposal in the last 3 years? Answer YES or NO	YES <input type="checkbox"/>	NO <input type="checkbox"/>	
If you answered YES to the previous question, tell us what the accumulated billing was for technologies similar to those in this proposal in the last 3 years.			
Does your entity have previous experience in comprehensive assistance with solutions similar to those proposed here?	YES <input type="checkbox"/>	NO <input type="checkbox"/>	
If you have answered YES to the previous question, indicate a brief summary of the experience (scope, client, execution period and brief description):			
Do you consider that there are relevant technical certifications that your entity has to undertake work such as the one proposed? Answer YES or NO	YES <input type="checkbox"/>	NO <input type="checkbox"/>	
If you answered YES to the previous question, tell what those certifications are (max. 300 characters)			
Do you consider that your entity's personnel have qualifications that are specifically relevant to undertake challenges such as those you pose? Answer YES or NO	YES <input type="checkbox"/>	NO <input type="checkbox"/>	
If you answered YES to the previous question, tell what those qualifications are (max. 300 characters)			
Have you invested in R&D in the last 3 years? Answer YES or NO	YES <input type="checkbox"/>	NO <input type="checkbox"/>	
If you have answered YES to the previous question, tell us what the amount of said investment expense has been in the last 3 years.			
Has your entity obtained competitive public financing for R&D projects in any of the last 3 years? Answer YES or NO	YES <input type="checkbox"/>	NO <input type="checkbox"/>	

<p>If you answered YES to the previous question, tell us what volume of financing of this type you have received in the last 3 years.</p>		
<p>For the challenge posed, provide detailed information regarding research, development of solutions, publications, etc., carried out or being carried out whose purpose is similar to that indicated:</p>		
<p>What instruments do you consider to be the most appropriate for collaborative participation in an innovative process such as the one proposed?</p>		
<p>IN RELATION TO ACCESS TO URGENT ULTRASONOGRAPHY AS A FUNDAMENTAL PART OF COMPREHENSIVE AND CONTINUOUS ASSISTANCE TO THE CITIZEN Description of the proposed solution</p>		
<p>Brief summary of the solution proposal: functional specification (maximum 300 characters). This information may be incorporated, totally or partially, into the public results report (*)</p>		
<p>Description of the possible idea that can satisfy the stated need, described from a functional approach (maximum 1000 words) This information may be incorporated, totally or partially, into the public report of results.</p>		
<p>Do you consider that your proposal provides a comprehensive solution to the challenges to which the proposal is presented? (*)</p>	<p>YES <input type="checkbox"/></p>	<p>NO <input type="checkbox"/></p>
<p>If you have answered “No”, what specific elements of the challenge/challenges do you consider your proposal provides a solution to?</p>		
<p>What technical requirements, from the point of view of equipment and infrastructure, would be necessary to be able to develop your proposal in the SNS-O.</p>		
<p>Could your entity develop all the activities included in the proposal, or would you have to subcontract some activities? If so, what would they be?</p>		

<p>Proposed contractual formulas for the execution of the service. Indicate especially how the impact of the equipment costs on the service is going to be considered and whether the option of purchasing these is considered (in which case this cost must appear in a differentiated way in the budget)</p>	
<p>Contractual formulas planned to guarantee the continuous technological updating of the equipment used in the service. Indicate, if applicable, whether the update would entail an extraordinary cost and the proposed formula for billing.</p>	
<p>Proposed duration for the execution of the proposed proposal (months)</p>	
<p>To the extent possible, detail the phases and deadlines for the execution of the proposed proposal.</p>	
<p>Estimated cost of your solution proposal, including the breakdown by items contemplating, at least, personnel expenses, material investments, intangible investments and others, including general expenses and industrial profit using prices without VAT (€). At least all the areas of action described must be considered.</p>	
<p>Indicate the impact that the development of the proposed solution will generate (economic, professional and organizational). Please try to quantify the estimated variation in diagnostic processes using urgent remote-assisted ultrasound in the public hospitals of Navarra.</p>	
<p>Is the proposed project in line with your business strategy? Explain in what line and how.</p>	
<p>Elements of innovation (new technologies delivered and innovative solutions). (aprox. 500 characters)</p>	
<p>R&D results: expected innovative solutions. (aprox. 500 characters)</p>	
<p>Differentiating elements of your proposal compared to the products and services that are already available on the market. (aprox. 500 characters)</p>	

What do you consider to be the main risks of the project? (aprox. 850 characters)			
Indicate main benefits provided by the proposed solution.			
Indicate the technological capabilities available to you to carry out the proposed work.			
Are there any regulatory limitations for the development and validation of the solution that should be taken into consideration? Would any temporary modification be necessary? (aprox. 850 characters) (*)			
Current level of development at which your proposed solution is: Indicate the technological maturity level (TRL) at which it is:			
Describe the current state of technological maturity of the proposal and the different elements that make it up, and the developments to be carried out within the framework of the project. (aprox. 1000 characters)			
Technological needs to take into account for the application of your proposal (indicate examples) (*)			
Identify integration phases with pre-existing technologies and services.			
Identify the testing and rehearsal phases (in real public service environments).			
Indicate validation phases, certification, standards, etc.			
Describe the general observations regarding the technical and economic aspects that you consider appropriate regarding the project.			
Implantation and Deployment			
Indicate the regulations and regulations associated with the need raised (*)			
Do you consider that there is some specific limitation or barrier to the deployment of the product in the market? Which one? (*)			
Yeson Intellectual and Industrial Property Rights (IPII), a priori and due to the characteristics of your entity, does it	<table border="1" style="width: 100%;"> <tr> <td style="width: 50%; text-align: center;">YES <input type="checkbox"/></td> <td style="width: 50%; text-align: center;">NO <input type="checkbox"/></td> </tr> </table>	YES <input type="checkbox"/>	NO <input type="checkbox"/>
YES <input type="checkbox"/>	NO <input type="checkbox"/>		

have limitations to share the IPII with the contracting body?		
If you answered “YES”, detail these limitations. Likewise, explain which DPIIs could be shared and the conditions for this. What percentage do you consider could be shared with the contracting body? What percentage of the sale price could be established as a royalty?		
If a solution similar to the one included in your proposal is developed, would your entity be interested in its subsequent commercialization?	YES <input type="checkbox"/>	NO <input type="checkbox"/>
If you have answered YES to the previous question, indicate if your entity would have any problems with a royalty being established on future sales of the proposed solution. What percentage of sales do you consider could be shared with the contracting body?		
Do you intend to apply for future tenders related to the challenge?	YES <input type="checkbox"/>	NO <input type="checkbox"/>
Would you be interested in carrying out a pilot project prior to deploying the solution?	YES <input type="checkbox"/>	NO <input type="checkbox"/>
Indicate if there are pre-existing Intellectual and Industrial Property Rights (IPII) of the entity that would need to be used	YES <input type="checkbox"/>	NO <input type="checkbox"/>
If you have answered “Yes”, detail which pre-existing Intellectual and Industrial Property Rights (IPII) of the entity would need to be used and what value they would provide in the development of the project.		
Authorization for use of the data provided (check YES or NO)		
	YES	NO
I authorize SNS-O to store and disseminate contact data:	<input type="checkbox"/>	<input type="checkbox"/>
I authorize SNS-O to keep accessible and updated the necessary information, in whole or in part, about the proposal presented:	<input type="checkbox"/>	<input type="checkbox"/>
I authorize SNS-O to disclose technical or commercial information or documentation that, where applicable, is not identified as confidential:	<input type="checkbox"/>	<input type="checkbox"/>
Mandatory Declarations (check YES or NO)		
	YES	NO
The proposed solution presented is free of copyright or any other copyright or business right that prevents its free use by the Navarro Health Service - Osasunbidea or any other collaborating entity in the development of future projects:	<input type="checkbox"/>	<input type="checkbox"/>

I authorize the Navarrese Health Service - Osasunbidea, to use the contents of the solution proposals. This use will be limited exclusively to the possible inclusion of the contents in the process of defining the lines of work, which will be specified in the possible specifications of the possible contracting procedures that are subsequently processed.	<input type="checkbox"/>	<input type="checkbox"/>
--	--------------------------	--------------------------

The **content of the sections marked with an asterisk (*) may be reproduced in whole or in part in the final report of the results** of the Preliminary Market Consultation.

The SNS-O will store the contact data of the participants in the procedure in order to establish a communication channel with the proposers during the CPM process.

To ensure the transparency of the process, the availability of the greatest possible information and the effective exchange of experiences and opinions, participants will expressly state their agreement for the SNS-O to maintain accessible and updated the necessary information, in whole or in part, about their proposals. of solution, without prejudice to that which has been identified as confidential.

The SNS-O will respect the documentation, information and in general the aspects that the participants have defined as confidential, both in the form and in the attachments, which must be expressly indicated. However, it will not be admissible for them to make a generic declaration or declare that all documents or all information are confidential. This character affects, in particular, technical or commercial secrets and confidential aspects of the solutions.

The complementary documentation will be limited to a single document in .pdf format whose length must not exceed 30 pages in A4 format, numbered, including the cover and index.
